<p><i>* County totals represent residual allocations after large cities' allocations have been subtracted out. Because allocations were calculated using the actual numbers of individuals employed in December 2007 compared with actual numbers employed in 2008, some counties' employment declines in numbers of individuals were too small to register in the calculation. This allocation does not take into consideration counties with chronic high unemployment rates that preceded the period used for the calculation.</i></p> <p><b>IRS Guidance Publication for allocations can be accessed on:</b>  <a href="http://www.irs.gov/pub/irs-drop/n-09-50.pdf">http://www.irs.gov/pub/irs-drop/n-09-50.pdf</a></p>
